1. Refer to General Rules and Regulations.
2. In selecting vegetables for exhibits, choose such specimen that would bring the highest market price. Do not select the largest, select medium sized specimens. If at all possible, do not mix varieties.
3. The following factors are generally used by an expert vegetable judge:
 - a. Trueness to variety type. If at all possible, pick the specimens from one variety.
 - b. Uniformity in shape, size and color.
 - c. Be sure to pick out a perfect specimen, then select the others as similar to it as possible. Never mix specimens of different maturity.
 - d. Free from dirt, disease, infection, and mechanical damage. Select specimens that are perfect and show no blemishes of any kind.
 - e. Condition and Maturity. Be sure that exhibits are of high quality.
 - f. Stems on beans (snap bush/snap pole) 1/2 inch evenly cut. Carrots, beets, etc. should have tops (leaves) removed from vegetables, leaving about 2 inches of stems.
